META-FORUM 2016
Lisbon, Portugal – July 05, 2016

META-NET has received funding from the EU's Horizon 2020 research and innovation programme through the contract CRACKER (grant agreement no.: 645357). Formerly co-funded by FP7 and ICT PSP through the contracts T4ME (grant agreement no.: 249119), CESAR (grant agreement no.: 271022), METANET4U (grant agreement no.: 270893) and META-NORD (grant agreement no.: 270899).

Panelists

- ❑ **Franciska de Jong** (CLARIN ERIC, University of Utrecht)
for CLARIN and LT_Observatory
- ❑ **Stelios Piperidis** (ILSP, R.C. "Athena"; META-NET)
for META-SHARE
- ❑ **Khalid Choukri** (ELRA/ELDA)
- ❑ **Spyridon Pilos** (DG Translate, European Commission)
for MT@EC and CEF.AT

Question 1

- ❑ What is your view on the infrastructure landscape in Europe (and beyond)? Is there enough coverage – by language, by technology, by research fields to serve?

Question 2

- Do we need to integrate more tightly, or is data/interface compatibility enough? Is there actually any compatibility today?

Question 3

- What are any other pressing issues to make more data available – for research, for business use?

Question 4

- Is funding sufficient (today, it is mostly national)? What about sustainability? What you think the EC can and should actually do to support getting more (really usable) data?

Additional Questions

- ❑ Any innovative ideas for getting more resources [cheap]? (“there is no data like more data”)
- ❑ What services (tools, applications) wrt language resources are the most wanted, in research and in commerce, and missing today?
